

## A modern bathroom interior featuring a green vanity unit with a black sink, a large round mirror, and a tall green cabinet against a marble wall. The vanity unit has two drawers and a cabinet door, all in a matte green finish with small, dark, rectangular handles. The sink is a simple, black, bowl-shaped vessel. Above the sink is a large, round, black-framed mirror. To the right of the mirror is a tall, narrow, green cabinet with a single door and a small, dark, rectangular handle. The wall is covered in large, light-colored marble tiles with natural veining. A small, black, oval-shaped pendant light hangs above the vanity. To the left of the vanity is a small, round, light-colored wooden stool with three legs, holding a stack of white towels. The floor is made of large, dark grey tiles. On the right side of the image, a tall, black, vertical radiator is visible next to a window with a black frame. A large green plant is partially visible in the bottom right corner.

## Refined, Elegant & Enduring

Piece together your perfect traditional bathroom with our bespoke collection of freestanding baths, ceramics and furniture, that look extraordinary and work together flawlessly.

1. Old London Furniture in Storm Grey (page 156 – 162).
2. Farrington Freestanding Bath (page 174).
3. Bexley Furniture, in Fern Green (page 164 – 167).
4. Old London Furniture in Twilight Blue (page 156 – 162).

# Modular Furniture

A beautiful blend of practical storage & eye-catching style.

Hudson Reed has a proud history of providing quality furniture ranges, allowing you to bring your unique personality to your home.

5 5 year guarantees unless otherwise stated

# Modular Furniture

Our modular furniture gives you the flexibility to individualise your bathroom design by introducing fine stand-alone pieces to create precisely the look you desire.

## Best of British Quality

Most of our Modular furniture is made here in Britain. Easily maintained and hard-wearing, all our furniture comes with a five-year guarantee. Soft-close doors and hard-wearing drawers are fitted as standard.

**MADE IN BRITAIN**

## Supplied Rigid

Quicker and easier to install.

## Brilliant Design

Look out for innovative features such as curved basins and fluted doors.

## Slimline Designs

A choice of slimline options ideal for cloakrooms and smaller bathrooms.

## Ceramic & Polymarble Basins

Ceramic won't fade or discolour and will be a great colour match for your toilet. Polymarble ensures a crisp, super smooth finish and is incredibly durable.

## Innovators of Individuality

Choose either complete units with cabinets and basins, or create your own look buying each component part separately. Scan the QR code on each range to browse all components.

# Lille

Elevate your bathroom with our contemporary Lille collection. Featuring a subtle in-frame design, that will create a unique design statement in your bathroom.

# Sarenna

Sophisticated style with elegant curves, and with a contemporary colour palette that beautifully complements the crisp white polymarble basin or marble worktops.

# Sarenna

## Inspiring your individuality

Make a choice between four satin colours, and complement your Vanity Units with either a luxury Polymarble Basin or Marble Worktop.

Available in 700mm and 1000mm Basin sizes, the Vanity Units offer ample storage, and the option to choose a Marble Worktop adds even more luxury to the Sarenna collection.

# Glass

## Uniquely crafted Shower Enclosures, Wetroom Screens & Shower Trays.

### EasyFit

Patented EasyFit technology for quick assembly is available as standard across our enclosure range (where applicable).

### Shower Shield

Our glass is treated with a Shower Shield easy clean coating that repels water and prevents the build up of limescale.

### Toughened Safety Glass

All enclosures and screens come with toughened safety glass for added peace of mind.

L Lifetime guarantees  
unless otherwise stated

# Apex

The perfectly crafted Apex Shower Enclosures incorporate our patented EasyFit technology to guarantee swift assembly.

# Taps & Showers

Carefully sculpted in a host of styles, to suit any design theme.

**20** 20 year guarantees unless otherwise stated

Discover precision control with our intuitive range of Taps, Shower Valves and co-ordinating accessories.

Look out for the VQ number next to each WRAS approved product. For latest WRAS approved products see our website. WRAS approvals do not include wastes.

We are the proud owners of the unique Valquest showers — the power behind our stunning valves, that perform to the highest industry standards.

Look out for the VQ number next to each associated product.

All our taps feature Ceramic Disc technology for smooth and consistent operation.

Shower Valves have full thermal protection to prevent scalding even in the event of hot or cold water failure. Thermostatic control to +/- 2 degrees, even if the temperature or incoming pressures fluctuate.

See page 135 for our Tap & Shower guide.

# Tap & Shower Guide

There are lots of reasons to choose a Hudson Reed thermostatic shower: safety, contemporary design, co-ordinating taps and market-leading guarantees. Even better, our shower valves are also great for your installer, meaning less time and therefore less cost to you.

## Hudson Reed Shower Benefits

### Installation Made Easy

- A selection of our Thermostatic Shower Valves contain the patented Valquest cartridge, which makes them easy to install and maintain.
- The cartridge is fully reversible, meaning if hot and cold supplies are the wrong way round, it doesn't need re-plumbing. Simply remove the cartridge, turn 180° and replace.
  - The patented cartridge is highly resistant to calcium build-up, even in hard water areas.

### Safety For All The Family

- Full thermal protection to prevent scalding even in the event of hot or cold water failure.
- Thermostatic control to +/- 2 degrees, even if the temperature or incoming pressures fluctuate.

### Made in Britain

Our shower valves are manufactured in Bolton by a dedicated team, and we are proud to be members of the Made in Britain scheme.

### Reliability

- Accurate flow control.
- Excellent flow rates – even at low pressure. Hudson Reed showers can deliver 5.5 litres of water per minute at 0.1 bar pressure.

## Tap Water Pressure Guide

### Water Pressure

Make sure you know the water pressure in your bathroom before you choose your tap or shower. They sometimes require higher pressure to operate efficiently.

Bar	
LP1	0.1 Bar Suggested
LP2	0.2 Bar Suggested
MP	0.5 Bar Suggested
HP1	1.0 Bar Suggested
HP2	2.0 Bar Suggested

## Shower Systems Explained

### Gravity-Fed System

Low Pressure

If you have a cold water tank in your loft and hot water cylinder then you have a gravity fed system.

Suitable for all LP1 and LP2 combinations. For all our MP and HP combinations, you may need to use a suitable shower pump to give the required pressure for optimum performance.

### Mains System

High Pressure

If you have a combination boiler or instantaneous gas water heater (multipoint heater) then you have a high pressure mains system.

Suitable for all of our shower systems.

### Unvented System

High Pressure

If your hot water is stored under pressure in a cylinder you have a high pressure unvented system.

Suitable for all of our shower systems.

### Shower Pumps

High Pressure

The valves are also suitable, without modification, for all types of installation, including pumped, gravity systems, mains pressure and combination boilers.

There are many choices of shower pumps, including positive or negative head pumps - please ask your installer to confirm which will be suitable for your specific installation.

# Heating

Our designer Radiators and Towel Rails inspire warmth and elegance in any room.

Many of our products are fashion statements as much as functional pieces. With imaginative lines and bold colourways, our heating makes a real focal point, and blending heating power with supreme energy efficiency.

## UKCA/CE Approval

All our radiators have been designed to provide a comfortable level of warmth needed for everyday indoor use, as well as being manufactured to conform to BS EN 442-1:2014, and all current European standards. Our heating products have all been independently tested and we are delighted to present our collection of fully certified CE products that conform to all applicable standardized regulations.

# Designer Radiator and Heated Towel Rail FAQs

**How much heat will I need?**  
All rooms are individual and therefore the heat output required from your selected radiator will vary. It is important that you choose the correct radiator to ensure that enough heat is generated to keep you comfortable. A sensible tip is to always choose a model with a higher heat output than you require, as this can always be controlled by turning them down.

**What is the measurement for heat output?**  
All our radiators carry the heat output measured in either:  
• BTUs (British Thermal Unit) or  
• Watts  
BTUs are shown with water temperature of 80°C at radiator inlet.

**What heat output will I need for my room?**  
It is highly recommended that your installer calculates the BTU requirement for each applicable room, so you can get the maximum heat benefit from your chosen radiator. We strongly suggest this is done before purchasing your radiator.

**What radiator designs offer the best heat output?**  
Basically, the bigger surface area that a radiator has, the more heat output will be generated. Another general guide is that painted finishes offer a slightly better heat output than chrome-finished items. To optimize the space you have available, we offer radiator designs that can be fitted horizontally or vertically. To get additional heat output from the same area, you can also choose options that include multiple rows of tubes, panels and columns.

**Radiator colour options**  
From stock, we offer the most current fashionable colour options across a wide range of products. Please note that owing to the printing process, the actual colours on the radiators may vary slightly from those shown in our brochure.

**Pipe centres**  
All our dimensional details are published in our current brochure and on our website. However, owing to manufacturing tolerances, we strongly suggest that your final pipework position is not completed until you actually receive delivery of your radiator.

**Electric-only radiators**  
Where your installation location does not have immediate access to an existing water supply, we can offer purpose-made electric-only products for a quick and easy solution to your heating needs. These electric-only products are supplied pre-filled with an electrical inhibitor solution, and fitted with a compatible heating element.

**Dual-fuel radiators**  
Some of our radiators can also work as dual-fuel applications, which means that when your main heating system might be turned off in the summer months, you can still operate your radiators electrically if required. Please consult your plumber before purchasing heating elements.

**Radiator valves options**  
Depending on your choice of radiator, we have several styles to choose from, details of which can be found on the left hand page.

**Warning / Precautions**  
Qualified persons should make all electrical and plumbing connections. When fitting radiators with heating elements, the radiator must always be mounted with the element at the bottom with the radiator in the upright position. Failure to do so may result in a fire hazard.

# Old London

The Old London collection incorporates luxurious period designs, with the latest in technology.

Traditional Bathroom Furniture, Ceramics, Taps, Showers and Radiators, that brings timeless elegance and classic charm to any bathroom space.

**20** 20 year guarantees unless otherwise stated

# Taps & Showers

Perfect for period style bathrooms, our traditional brassware offers both decadence and sophistication.

## Design

We've blended traditional luxury with modern technology, to offer a multitude of product options and design variations across all our brassware.

## Choice

Our high performing range of taps and showers are available in lever and cross head styles, and with the option of black or white finishing touches. This gives you the benefit of complete control when it comes to creating your own traditional bathroom.

## Ceramic Discs

All our taps feature Ceramic Disc technology for smooth and consistent operation.

## Anti-Scald

Shower Valves have full thermal protection to prevent scalding even in the event of hot or cold water failure. Thermostatic control to +/- 2 degrees, even if the temperature or incoming pressures fluctuate.

See page 135 for our Tap & Shower guide.
